LOCAL NEWS.

THE EQUINOCTIAL STORM.—Though deferred, the equinoctial storm did not fail to pay its accustomed visit. It commenced raining on Wednesday night last, and, with intervals, has continued, accompanied with a northeast wind, until the present time. The tide has been unusually high, overflowing some of the wharves, and extending up into King and Prince streets as far as Union. Along the line of the O. & A. & M. R. R. the damage caused by the flood that prevails has been considerable. The main bridge across the James river at Lynchburg, the bridge over Moore's Creek at Charlottesville, and the bridges over the Tye River and Rockfish Run have been swept away, and an extensive wash has occurred near Shadow Lake, between Gordonsville and Charlottesville. The through train that left here yesterday morning is detained at Gordonsville, and the train due here yesterday evening was at Charlottesville at 7 o'clock this morning. A large number of hands are at work night and day making the necessary repairs, and travel, it is expected, will be resumed this evening. The through train left this morning on time. The road is uninjured as far as Culpeper. Though the Potomac is full the runs in the immediate neighborhood of the city are not unusually high.

U. S. STAMPS.—The only instruments exempted from tax on and after October 1st, by the act of July 14th, 1870, are "promissory notes for a less sum than one hundred dollars, and receipts for any sum of money, or for the payment of any debt." Bank checks, drafts, and orders for any sum of money require a stamp as heretofore. Promissory notes of one hundred dollars and upwards are also to be stamped as heretofore. The act of July 14th, 1870, further provides that "no stamp shall be required upon the transfer or assignment of a mortgage where it or the instrument it secures has been once duly stamped."

OVERBOARD.—Col. Nicklin, in an attempt to jump on board the steamer City of Alexandria, after she had left the wharf on her nine o'clock trip this morning, fell into the river. He struck out manfully for the shore, retaining possession of his umbrella and hat, and by means of a rope, thrown to him by Capt. Thos. Travers, who witnessed the accident, was soon on dry land.

BRACKISH WATER.—Just previous to the rain of yesterday and to-day, owing to the existence of the long prevailing drought, the water in the Potomac had been brackish so high up the stream, that salt water tailors were caught at Aquia Creek—a most unusual occurrence.

WASHINGTON AMUSEMENTS.—The steamer City of Alexandria will make a special trip to Washington, to-night, for the accommodation of those who may desire to visit the places of public amusement now open in that city.

COLLISION.—The steamer Virginia, of the Maryland ferry line, on her nine o'clock trip this morning, ran into a sloop, bound up the river, and stove in a portion of her rail.

CANAL BOAT SUNK.—The canal boat E. F. C. Young, struck on an old spike, just outside of the outlet lock, this morning, and sunk.

POLICE REPORT.—Mary Odell, on complaint of Kate Martin, both colored, for disorderly conduct and profane language, was fined and discharged.

Mary Allen on complaint of Thomas Freeman, both colored, for tearing down complainant's fence at Newtown, was dismissed, as the charge was not sustained, and costs assessed against complainant.

Joseph Moore, a boy for striking Edward Cranklin, a colored boy, with a knife, was discharged with an admonition.

Catherine Hamburg, on complaint of Bettie Lee, both colored, for disorderly conduct, was fined and discharged.

Margaret McConin was committed to jail for further examination on the charge of stealing about fifty dollars from the people of the house in which she lived.

Affairs at police headquarters continue as they have been for the past several days—very quiet.

On several occasions of late, the policeman on the Court House boat, has had stones hurled at him while extinguishing the lamp, at the intersection of Columbus and Patrick streets.

MAJOR'S OFFICE.—Complaint was made by Mayor Ivory, colored, against Matthew Percece, canal boatman, for an assault made upon the complainant while on the Georgetown Level, but as the offense was committed outside the limits of the Mayor's jurisdiction, no warrant could be issued.

NIGHT REPORT.—Night rainy and dark. There were no disturbances and no arrests, and the streets were as quiet as usual.

MARRIED.

On the 29th inst., by Rev. Mr. Haynes, GEORGE McCracken to ISABELLA NIGHTINGill, both of this city.

TELEGRAPH NEWS.

[SPECIAL DISPATCHES TO THE GAZETTE.]

FOREIGN NEWS.

LONDON, Sept. 30.—A telegram just received from Tours contains the following news: There is considerable insubordination in the French army. The officers are apparently unable to prevent disorder and violence among the raw and undisciplined soldiers, although severe examples have been made of a number of offenders.

The Prussians have not yet arrived at Orleans. They have desisted from their westward march and seem to be concentrating around Paris.

The report of a movement of the Prussians on Lyons is also untrue.

The French say that the Prussian losses since the war began, and particularly at the investment of Paris, have been so immense that the German authorities have taken care to conceal the facts from the newspapers.

The Times correspondent, writing from Luxembourg, says that Mezieres is very strong, but it was not thought it could hold out.

French prisoners of war have been set at work constructing a canal in Haanover.

Later advices from Paris announce that the construction of barricades is being vigorously pushed under the supervision of Henri Rochefort and Gustave Flourens.

The Mobiles have been armed with a new and dreadfully destructive engine. The invention has just been made and is kept a profound secret. It is said to be more formidable than the famous mitrailleuse.

The Tours firemen are being enrolled. Large numbers of breech loaders have been distributed to such of the Gardes Nationaux as had inferior arms.

Tours, Sept. 30.—Later advices from Paris mention a series of successful engagements around the city.

The order of the hesitated has been much increased by these victories.

New breech-loading cannon have been placed on the ramparts.

There are no signs of the enemy in this direction yet.

LYONS, Sept. 29, via Tours, Sept. 30.—The political excitement has entirely subsided.

A few additional arrests of Cluseret's adherents have been made.

ROUEN, Sept. 29, via Tours, Sept. 30.—Another balloon from Paris landed near Mantes. The Courier, with a great number of letters and packages, has gone forward to Tours.

LONDON, Sept. 30.—There is no abatement in the military preparations of Russia.

At the arsenal at Kiev, five hundred percussion muskets are daily turned into breech-loaders.

The streets are full of soldiers and sailors, moving into position, and crowds collecting, notwithstanding the storm, to witness the solemnities.

There is some talk now (at eleven o'clock) of postponement.

LONDON, Sept. 30.—The naturalization treaty between the United States and Austria has been signed by both governments.

Tours, Sept. 30.—It is proposed to abolish all pensions, and the leaders of the government propose to take no salaries.

Heavy Storm and Freshet.

RICHMOND, Sept. 30.—Superintendent Kates of the Western Union line telegraphs this morning that a number of buildings at Lynchburg have been swept away, and that both the gas and water works have been submerged.

Houses from the country above have been floating by all the morning and during last night.

The new iron bridges of the Southside road were carried away this morning.

RICHMOND, Sept. 30.—The highest freshet ever known there, is prevailing at Lynchburg. The passenger bridge across the James river, quarter of a mile long, was washed away last night. The depot of the Orange and Alexandria, and the Va. and Tenn. railroads, are submerged.

The canal is submerged, and the boats are going about over the tow path and through the lower streets of the city.

The water washed up the main gas pipe, and at 11 o'clock last night Lynchburg was suddenly thrown into total darkness.

A large number of employees on the Southside railroad are cut off on an island below the city.

The freshet will reach Richmond about two o'clock to-day.

The river here has already risen a foot. The merchants in the lower part of the city are busy removing their goods in time.

The telegraph lines are down in all directions.

Farragut Obsequies.

NEW YORK, Sept. 30.—The weather is rainy and unpropitious for the Farragut obsequies, although the arrangements are complete. The public schools have been dismissed for the day. The Stock Board closes, and business in good part is suspended.

Thousands of flags are at half mast; all the public buildings are draped; and nearly every house along Broadway and the other streets where the procession is to move, is festooned in black.

Among the mottoes displayed are the following: "One of the few—the immortal names that were not born to die."

"We mourn the loss of this pillar which has fallen from the old temple of liberty."

NEW YORK, Sept. 30.—The remains of Admiral Farragut arrived this morning on the Bristol, accompanied by a committee of the New York Common Council. They were taken thence in the tug-boat Catalpa to the Brooklyn Navy Yard.

The Commandant of the Navy Yard and a number of other officers being on board, the tug left the Navy Yard about 10:30, and arrived at the foot of Canal street at 11 a. m. amidst a tremendous salute of guns, and the remains were handed over to those in waiting.

The procession started immediately, amidst salutes of the guns and immense crowds.

Exposition—Excursionists.

CINCINNATI, Sept. 30.—There were 10,000 visitors at the Industrial Exposition yesterday. The Green Line excursionists were present. The fair is now in full operation, and the display is the best ever seen west of the Alleghany mountains. On the arrival of the Green Line excursionists, C. W. Rowland, President of the Chamber of Commerce, made the welcoming speech, which was responded to by Col. McClusters, of South Carolina. The excursionists number 300, from South Carolina, Georgia, Alabama, Tennessee and Kentucky.

Volcanic Eruption.

SAN FRANCISCO, Sept. 30.—Parties from Lower California, report that the volcano near San Rafael valley which has been in a dormant state for years, has commenced a violent eruption, emitting columns of smoke and scattering ashes and cinders for miles around its base. Telegrams from San Diego say that it is plainly visible there. Last night the whole Southern horizon was dark with smoke.

Excitement.

LAWRENCEBURG, Ind., Sept. 30.—McDonald, Cheek, Owen and Bailey, murderers of Thomas Harrison of Manchester, Ind., were produced in court yesterday. Considerable excitement was caused by their counsel moving for a change of venue. The people are excited, and it is feared there will be trouble if the trial is held elsewhere.

Bank Rates.

LONDON, Sept. 30.—The Bank of Holland has reduced its rate of discount to 4 1/2 per cent.

NASHVILLE, Sept. 30.—Berj. T. Mayhew was arrested yesterday on a charge of having received, by express, a large sum of counterfeit money.
